6. DETERMINING BUILDING PERMIT FEE BASED UPON ESTIMATED COST OF CONSTRUCTION

- 1) Permit Fees are based upon project valuation on the determined valuation of a project.
- 2) Valuation means the estimated total cost of building construction, including all electric, mechanical, plumbing and permanently fixed equipment. It is not meant to determine the market value of the structure.
- 3) Values provided by the applicant that appear to be significantly lower or higher than experience has shown with similar projects will be determined by researching recent similar permits or commercial valuation tools to determine an approximate average square foot value of the work.
- 4) Total valuation includes design fees, but does not include land price.

THIS IS NOT A BUILDING PERMIT
